From: Turner County Federal Programs Department

Re: Stakeholder Input

Date: July 1, 2019

The Turner County School District, with the assistance of stakeholders, conducted a Comprehensive Needs Assessment (CNA) and developed a District Improvement Plan (DIP) that guided our work during the 2017-2018 school term. The Turner County District Leadership Team made the decision to continue to utilize these plans for the 2018-2019 school term. Minor revisions were made to the 17-18 plans but the established instructional goals remained the same. The SY17-18 and SY18-19 District Improvement Plan, the SY17-18 and SY18-19 Comprehensive Needs Assessment, and a document that details revisions made for the SY18-19 plan have been placed on the district's Federal Programs Link. You may access these documents by clicking on the "Departments" tab and then selecting "Federal Programs."

Additionally, we have included the SY18-19 Foster Care Transportation Plan, the SY18-19 Equity Action Plan, the SY18-19 Migrant Identification and Recruitment Plan, and the SY18-19 Parent and Family Engagement Policy/Plan on the Federal Programs tab.

We encourage all stakeholders to review these plans throughout the term and to offer constructive feedback. Please email any comments and/or suggestions to the attention of the following:
